

Deepak Sharma

Brampton, ON | (416) 723-2829 | dsharmarph@gmail.com

Healthcare Technology Specialist

Healthcare Systems | Software Testing | Workflow Optimization

SUMMARY OF QUALIFICATIONS

- A versatile **Digital Health Engineering** professional with over 10 years of experience in the healthcare sector
- Knowledge of **Agile methodologies**, version control, **web development** and **software testing** best practices
- Strong understanding of administrative and **workflow management** in high-volume environments
- Exposure to **systems implementation**, **workflow design**, and user support in clinical settings
- Experience troubleshooting workflow and system-related issues to ensure efficiency and accuracy
- Knowledge of regulated procedures aligned with **digital documentation systems**
- A highly analytical and detail-oriented professional with strong problem-solving, and data accuracy skills
- Excellent communication and collaboration skills in multi-disciplinary environments

CORE COMPETENCIES

Development: SQL, Java, MERN Stack, Object-Oriented Programming, User-Oriented Design

Technical: Troubleshooting, Testing & QA, Technical Documentation, Issue Resolution

Project Support: Agile Practices, Requirements Gathering & Analysis, Cross-Functional Collaboration

Tools: MS Enterprise Applications (Office 365), GitHub, Visual Studio Code

Healthcare Systems: Epic Systems, Cerner EHR, MEDITECH, HIS Support, Clinical Workflow Analysis

EDUCATION

Digital Health Engineering Advanced Diploma | Centennial College, Toronto, ON In Progress

Focus Areas: Healthcare Information Systems | HL7 Standards | Software Testing & QA | Requirements Engineering | Systems Design | Web Application Development | Database Concepts (SQL) | Java Programming

Pharmacy Technician Diploma (CCAPP Accredited) | Centennial College, Toronto, ON

Bachelor of Pharmacy (B. Pharm) | Rajiv Gandhi University of Health Sciences, Bengaluru, India

ACADEMIC PROJECTS

Database Management Project – SQL, PL/SQL, Oracle

- Developed SQL and PL/SQL programs using Oracle SQL Developer for database creation, data retrieval, and workflow management
- Applied database concepts including joins, constraints, normalization, stored procedures, functions, and triggers in academic projects

Software Systems Design Project – UML, Agile, System Analysis

- Collaborated in a team environment to analyze system requirements and develop software design documentation using Agile practices
- Created UML diagrams, workflow models, use cases, and functional/non-functional requirement documentation for academic projects

Retail Database Project – SQL, Oracle

- Designed and developed a retail database system using SQL to manage inventory, customer records, and order information
- Led a team of four by coordinating project activities, monitoring milestones, supporting testing and QA processes, and ensuring successful project delivery

WORK HISTORY

Pharmacy Technician | Brampton Civic Hospital - William Osler Health System Oct 2017 - Present

- Utilize **MEDITECH** and **ImageNow** systems to process medication orders and support digital workflows
- **Troubleshoot workflow and system-related issues** to prevent delays and improve operational efficiency
- Collaborate with nurses, physicians, and pharmacists to manage high-volume medication requests
- Operate automated medication systems (Swisslog, Pyxis, Omnicell) to optimize medication distribution
- Support intravenous, chemotherapy, and hazardous drug distribution while maintaining strict safety protocols
- Implement **standardized procedures** for medication preparation, packaging, and labeling to ensure quality and regulatory compliance
- Manage daily cart fills and perform tech-check-tech verification to ensure accuracy of patient-specific orders
- Perform pharmaceutical inventory management including ordering, returns processing, and disposal
- Contribute to **workflow optimization initiatives** by identifying inefficiencies and supporting improvements in digital medication systems

Pharmacy Technician (Casual) | Shoppers Drug Mart (Central Fill Pharmacy) Aug 2022 - Present

Pharmacy Technician | McKesson Canada (Central Fill) Jun 2020 - Dec 2025

Pharmacy Technician | Calea Ltd. Jan 2016 - Sep 2022

Pharmacy Technician | Princess Margaret Cancer Centre Apr 2015 - Oct 2017

Pharmacy Technician | Baxter Corporation Mar 2012 - Apr 2015

Pharmacy Technician | Bayshore Specialty Rx Mar 2011 - Apr 2015

- Ensure **data accuracy** and compliance within automated prescription processing systems
- Support high-volume centralized medication workflows to maintain efficiency and timely order fulfillment
- Perform quality checks and **system validations** to ensure reliability and accuracy of prescriptions
- Provide **training on technology systems** and workflow processes for onboarding of new Technicians
- Collaborate with cross-functional teams to resolve workflow issues and improve operational performance
- Ensure adherence to quality standards, company protocols & policies, and **healthcare regulations**
- Managed sterile compounding operations aligned with digital documentation systems
- Supported **workflow optimization** and **quality assurance** initiatives, including setting task prioritization measures and improving efficiencies in a high-volume environment
